Achievement Goals & Assessments:

We want to show 80% of students at or above grade level in all grade levels on NWEA (K-2) or ILEARN (3-8) assessments.

Interventions:

Students will be identified during PLC time who are not performing at or above grade level. Intervention plans will be created with the Resource teacher and classroom teacher to remediate.

Professional Development:

Teachers will use PLC time to monitor student achievement and find ways to intervene for struggling students.

Monitoring Plan:

Students who are receiving intervention will need to be progress monitored using teacher created assessments.
